**RE: COVID-19 Update Glen Communications**

As an update to The Glen's current COVID-19 communications, we are informing you that two additional residents in River House at Village Health Care have tested positive for coronavirus on Tuesday, May 12, 2020. River House is under quarantine and direct care workers in that household are limited to that designated area. These two residents have been moved to an isolation area and are being treated. All family members with loved ones who have been exposed in River House have been contacted. All residents are continuing to be monitored for symptoms. Additionally, all staff members are continuing to be screened prior to reporting to their area.
