Leadership news

Glen Board of Directors welcomes new member

WASHINGTON

The Glen is pleased to welcome Allison Washington to the 2020-2021 Board of Directors. She joins 13 other members to serve The Glen community.

Allison, a native of Jackson, Mississippi, is the administrative assistant to The Dean of the Hurley School of Music at Centenary College. Previously, she was a communications consultant. Allison has served in several nonprofit and community groups in the Shreveport area.

In remembrance

Honoring the legacy of a former Board member

The Glen is deeply saddened by the passing of former Board member, Martha Talbot.

Martha served on The Glen Board of Directors from 1983-89. During her time on the Board, she served as 2nd Vice President from 1987-88 and contributed to multiple committees including: strategic planning, development, volunteer services and long-range planning.

Her civic contributions to other organizations around Shreveport were numerous. She once said she was happy to include The Glen on the list of places where she contributed because it "renders a wonderful service."

TALBOT

a message

DEBRA WILLIAMS
President & CEO

Like you, we have much hope for the new year. After the turmoil of what the pandemic has put Louisiana through, we all are inviting a brighter new year filled with happiness and the possibility of togetherness. We have plenty to look forward to in 2021 at The Glen.

It's been five years since I was selected as President and CEO of The Glen, and each day, moving through this trying time, I absolutely see hope in The Glen's future. We come into 2021 bringing strength, direction and resilience.

I thought I would share a few items that give me this hope when looking ahead to 2021.

The 2020-2021 Board of Directors. Through the pandemic, The Glen's Board of Directors remained informed of our community's status. They reached out – and continue to do so – for updates or to check in. The Board members exhibited genuine concern for the residents and team members. Each Board member's experience strengthens us. It was a rewarding feeling to have the support of the Board through one of our toughest battles with the ongoing pandemic.

The Board members join The Glen with a servant's heart and a keen understanding of our mission. As volunteers, all of our Board members show dedication and a passion for serving in The Glen community.

As some Board members end their term and we gain some new, their connection to The Glen never fades. All Board members, both current and past, continue to hold a special place in their hearts for The Glen and share the excitement of looking toward the future.

Connections. Last year, we plugged into our community and learned what makes The Glen unique. We found that connections make The Glen shine. Staff members, residents and family members share a bond like no other. The landscape at The Glen is fully connected and will be accessible when the renovation and construction work is complete.

Most importantly, our connections helped us immensely through the early stages of the pandemic and continue to do so. Working together provides us hope for a brighter tomorrow.

The Glen's landscape. It's a known fact that many residents and families choose The Glen because of our landscape. I've heard several times that the grounds are clean and attractive. The environment brings a sense of reprieve.

In 2021, we will elevate our curb appeal with renovations, a new option for independent living, a connection for The Cottages and plenty of outdoor spaces that accommodate those of us who like to be outside and breathe in the fresh air.

While 2021 will bring plenty of newness to The Glen, we still thrive because of the strong foundation built with our history. We will continue to push forward and be a familiar place to the community where we offer a comfortable atmosphere served with joy all around. We can't wait to cut the ribbon and welcome you in this year. It's our hope that 2021 will bring great happiness to the residents and staff at The Glen.

Redbrook reaches new heights

Construction and renovation move ahead on campus

Redbrook continues to gain momentum as construction work progresses at The Glen. Brickwork is nearing completion, and installation is set to begin on drywall soon.

More than half of the residences at Redbrook are reserved, and plenty of prospective residents are interested in learning more about Redbrook as we all watch it go up.

On the community side, the exterior renovation work continues for Village Health Care and at The Stiles Apartments, as well as the connection building at The Cottages. It's a very exciting time to be a resident at The Glen.

If you would like to learn more about Redbrook or specifics on availability in any living option, reach out for a tour at 318-798-3500 or email info@theglen.org.

A view of the back of Redbrook shows a closer look at the patios and balconies.

A view of the front of Redbrook offers a look at the brick work.

Redbrook amenities

- Wellness center
- Two new dining venues
- Indoor, heated pool
- Multi-purpose areas
- Walking paths
- Bocce ball courts
- ... and others listed at theglen.org/redbrook

The frame work for the connection building at The Cottages takes shape.

Clockwise from the top: Doyle Barnett receives special recognition along with other veteran residents in a ceremony on Veterans Day. Connie Sullivan, Shirley Sepulvado, Chris Douglas and Gordon Oswalt with The Glen show off their buttons indicating they received the first dose of the COVID-19 vaccine. Residents enjoyed a performance from the Shreveport Opera in Grandmother's Garden.
